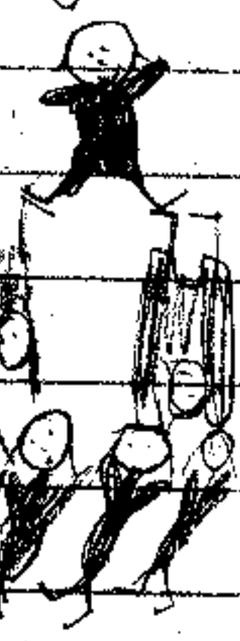
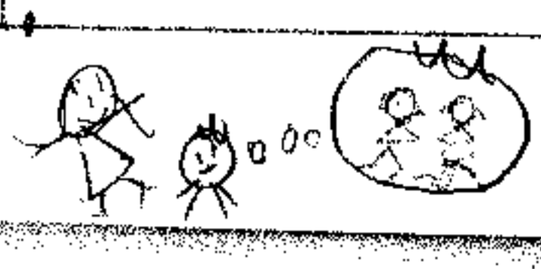
Why was this event important to me? Football

I felt so happy I came with dad to this place because I was happy, happy, to see a special moment in a half time band. I was also very happy to see my dad's field where he played foot ball. And I was surprised when dad saw some of his high school friends. And when I was looking at the band they looked like Asian people but there were also English people.



Also — some women came and danced when the band was playing. It was a speci' moment to see some dancing.

It was important cause I went with grandma and dad.


Maybe Reminds dad about football playing in his high school.
