

The fire drill at the Halloween Happening by Celia Tang

whooping, wailing. All of a sudden there was a fire truck sound. The fire truck light was almost all over the place. The fire truck came. I was surprised. The fire truck light was flashing.

There was an exciting feeling and a nervous

feeling inside me. Red and yellow light was flashing.
We went on the grass. I was at my school. I was
scared that the fire was real. We had fire
drills all the times, but not the fire trucks. This is
the first time that it happened to me

as a child. I was at the Halloween

Happening with my mom and brother. I

wondered if we could live from this fire

drill. The fire drill lasted for a long time.

I thought at the Halloween Happening was

fun, but instead it was scary. Finally Mrs.

Jackson said on the speaker that it was

not real. We were standing in line before the fire

drill so now we went back in line. I

was really scared to see a fire

tracks so close. The fire truck was the

closest thing I EVER SAW!
