to me?

This was important because there
was a lot of noise. My ears
hurt. It had never happened as
a child. I never saw a fire-
truck so close. The light was
like floating in the air. The
noise was in a HIGH volume.
It had never been so scary
before. My stomach was flip-flopping
wiggling. There were a exciting
feeling to see a fire truck that close
and a like a nur best, waggly
